LEARNING STAGES

The learning stages at Learning Solutions Conference & Expo are led by speakers sharing insights and ideas and are packed with people who are eager to gain new information, skills, and knowledge. In addition to offering the opportunity to visit with dozens of exhibitors, the Learning Solutions Expo is a high-energy setting for three stages, each exploring a different topic and featuring sessions and speakers that showcase the best practices, hottest topics, and most innovative new ideas in learning.

EMERGING TECHSM

The **Emerging Tech** stage explores the technologies that are redefining what training and learning looks like in organizations. Sessions showcase the latest technologies, tools, and products that organizations are using to innovate their learning programs. The Emerging Tech stage gives you a chance to experience the learning technologies of tomorrow ... today!

STRATEGIC SOLUTIONSSM

At the **Strategic Solutions** stage, you'll encounter sessions that explore the approaches you can use today to develop and manage the strategy around your learning technology initiatives. Learn more about proven techniques and best practices that can help you plan, implement, and evaluate your solutions at all levels.

TOOLS & TECHSM

The **Tools & Tech** stage offers you an opportunity to explore the latest technologies used in delivering content. Sessions focus on emerging technologies, as well as new applications for the tools you already have. Learn from industry experts and your peers who are leveraging a variety of technologies that are transforming learning and performance.
