301: Tips and Tricks to Make your Visual Design Elements Sparkle

Tracy Parish, Southlake Regional Health Centre

11:30 AM – 12:30 PM PT

Let's make the elements of our visual design *sparkle*... figuratively of course! In this session, you will learn key design principles, typography tips, color theory, and everything in between. You will leave with a better understanding of designing visuals and plenty of places to find inspiration.

Below is a link to Tracy's curation website that lists the resources she discusses in her session.
